

SANTA ANA CLINIC

IMPORTANT ANNOUNCEMENT

March 2, 2011

Addition of a "Friday Family Practice Clinic"

Starting Friday 3/4/11, we are happy to announce that we will begin an extra day of family practice clinic every week that includes pharmacy services, usual appointments and same day health services.

* Dr. Tiffany Snyder will be the Provider of the Friday clinics and will cover other days as assigned with Reyna Watson, NA.

* Dr. Snyder would like to share a short personal history with you:
"I was born and raised in Kansas, where my family remains. I ventured east to medical school on the coast of Maine at the University of New England College of Osteopathic Medicine, graduating in 2000. I came to NM for my residency in Family Medicine in 2000 and had my continuity at AIHC. During that time, I fell in love with the diverse cultures, peoples and landscape here. After residency, I worked for 3 ½ years at ACL Hospital. I loved my experience there but left ACL after my oldest daughter was born to be closer to home. Working with medical students and young physicians has always been an interest of mine, so I joined the faculty at UNM School of Medicine and worked at the Family Medicine Clinic there for 4 years. I am so happy to have returned to AIHC and to have the opportunity to get to know the community of Santa Ana! When I am not at work, I keep busy with my 2 wonderful daughters, ages 1 and 5. We spend a lot of time creating "art" and playing at the park. I love to travel with my family, hike in the mountains and cook, and always welcome new recipes!"

* Dr. O'Shea/Rhetta Smith NA and Dr. Johnson/Vicky Esalio NA will continue to provide medical services here.
